

COLLEGE OF COMPUTER SCIENCES,

Mumbai- Bangalore Highway, Wakad, Pune -57

Strategic Plan of the Institute:

- To establish safety measures in the college campus, this should be effectively managed by the administration and security team.
- Maximum utilization of the resources to be done with respect to time and quality.
- New Teaching Aids along with the ICT devices to be used maximum
- Seminars and presentations should be emphasized in class rooms and laboratories.
- Students should also be exposed to Market and Industry through various activities and field trips, exhibitions and industry visits.
- To undertake programmes to enhance employability of students.
- Developments in sports activities and participation of students increased in sports.
- Make the premises, including office, paper free. To make the students and the society around, aware of Environmental issues.
- To ensure the integrity of examination process by removing any scope of personal interference and ensuring safety of exam material, the management committee of the institute came up with an idea to upgrade the security systems by incorporating Closed Circuit Tele Vision (CCTV) cameras in 2013-14.
- It also helps to secure valuable books as well as digital reference material through CCTV.
- It is necessary to put sincere effort for academic activities as well as for maintenance of administrative part.
- For the holistic development of the students, conduct the various cultural activities
